Profile

Experienced UX Designer and Developer with 3+ years of experience. Strong problem solver with the ability to learn quickly, communicate effectively, and develop solutions efficiently. As a designer and developer, I have the drive to keep learning modern trends and technologies.

Skilled in UI/UX Design, Front End Development, Adobe Creative Suite, Version Control.

Experience

WEB DESIGNER, PENSACOLA CHRISTIAN COLLEGE – 2016-PRESENT

- Lead web designer for Pensacola Christian College's advertising team
- Developed and maintained multiple redesign projects for internal and external websites (campuschurch.com, abeka.com, pcci.edu)
- Recently launched the redesign of the college's website (pcci.edu). I acted as the lead designer, developer, and project manager. Our team had 10 other designers that I was personally teaching, directing, and managing as we developed the new website. This project has given me the opportunity to learn key leadership qualities and problem solving traits.

DAILY TASKS & RESPONSIBILITIES

- Working with the marketing team to ensure that we are creating designs and products that are aligned with our company's vision
- Managing and overseeing several other team members, and making sure projects are being completed efficiently and on time
- Working alongside the IT department while building or implementing new features to our websites
- Assisting other lead designers on their websites and debugging any issues that they may encounter

Education

B.S. in Graphic Design, Pensacola Christian College – May 2016
